

Workshop Air Filters

Bosch Workshop Air Filters bring the tradition of quality and reliability to the installer market. Bosch Workshop Air Filters are engineered with high-quality materials for flawless operation over the entire service life of an air filter, making it a better choice for your customers.

The media in Bosch Air Filters is manufactured with special imprinting that provides a powerful fold and large surface for the entire filter service life. The media is also constructed with micro pores, which provide a high-particle separation rate that in turn, protects a vehicle's engine at a 98% efficiency* rate. It also prevents engines from being at risk for fires.

In addition to the media, our air filters are engineered with a polyurethane seal to safeguard the bypass of any unfiltered air. There is also no loss of filter surface through careful processing of the sealing material. It also reduces noise levels.

See back side for top 20 part numbers.

Features	Benefits
Filter Media	<ul style="list-style-type: none"> ▶ 98%* efficient in capturing microscopic particles and dirt ▶ Large dust-holding capacity through high number of pleats ▶ Inflammation protection through special coating
High-quality Seal	<ul style="list-style-type: none"> ▶ No bypass of unfiltered air due to high quality polyurethane seal ▶ No loss of filter surface through careful processing of the sealing material ▶ Increases engine performance and improves acceleration for better fuel efficiency

* Based on ISO 5011 Testing
