

Invented for life

InSight™ Windshield Wiper Program

This innovative hybrid blade has a streamlined design that utilizes patented single beam technology to help provide a replacement for your vehicle's original equipment, hybrid windshield wiper blade.

1 Innovative Hybrid Technology

- ▶ Precision contoured tension spring improves windshield contact for reliable performance.
- ▶ Reduced contact gaps on curved windshields for consistent wiping performance.
- ▶ Enclosed hybrid construction prevents less snow and ice buildup for increased durability.

2 Quality Wiping Edge

- ▶ Integrated beam technology with floating rubber creates consistent pressure points for equal force distribution across the blade.
- ▶ Graphite coated natural rubber for enhanced wiping performance in all driving conditions.

3 Market Focused

- ▶ 100% coverage of the hybrid OE market with only 12 part numbers
- ▶ Quick and easy installation

InSight Wiper Blades

Length	MKT #	VIO%
